Christopher W Johnson

Los Alamos National Laboratory
Feynman Distinguished Postdoc Fellow
cwj-seismo.github.io

Earth and Environmental Sciences Division:
Geophysics (EES-17) and Science Program
Office/Applied Energy Program (SPO-AE)

Appointments

Richard P. Feynman Distinguished Postdoctoral Fellow   Los Alamos, NM
Los Alamos National Laboratory, Los Alamos, New Mexico   2020-present

Projects (1) Seismic waveform processing using machine learning
       (2) Deformation models using machine learning
Advisors: Paul Johnson, George Guthrie, and Andrew Delorey

NSF Postdoctoral Fellow (*Principal Investigator*)   San Diego, CA
Scripps Institution of Oceanography, Uni. of California San Diego   2017-2020

Projects (1) Microseismic detection with machine learning
       (2) Seismic noise classification describing weak ground motions
       (3) Atmospheric processes coupling to the solid Earth with GPS
Advisors: Frank Vernon and Yehuda Ben-Zion *(USC) - Seismology*
      Adrian Borsa - *Hydrogeodesy*

NSF Graduate Research Fellowship Program   Berkeley, CA
Berkeley Seismological Laboratory, University of California Berkeley,   2012-2017

Projects (1) Surface loading, seasonal stresses, and earthquake modulation
       (2) Geothermal induced seismicity
       (3) Dynamic earthquake triggering
       (4) Fault creep and interseismic deformation
Dissertation: Stress modulation of earthquakes: A study of long and short
      period stress perturbations and the crustal response
Advisor: Roland Bürgmann

Undergraduate Research Assistant   Atlanta, GA
Georgia Institute of Technology   2010-2012

Projects (1) Deformation in the southern Walker Lane from regional GPS
      (2) Geodetic vs. geologic deformation in the southern Walker Lane
Senior Thesis: Measuring present-day strain rates along the Fish Lake
     Valley fault system, Pacific-North America Plate
Advisors: Kurt L. Frankel and Andrew V. Newman

Education

University of California Berkeley   Berkeley, CA
Ph.D. in Earth and Planetary Science   08/2017

Georgia Institute of Technology   Atlanta, GA
B.Sc. in Earth and Atmospheric Sciences   05/2012
Highest Honors, Geophysics Track with Research Option

Georgia Perimeter College   Clarkston, GA
Associate in Science   12/2000

Funding

LANL Richard P. Feynman Postdoctoral Fellow, Los Alamos NL   ($354k)   2020-2023
DOE Shallow crustal properties (Co-I with Yehuda Ben-Zion)   ($200k)   2019-2022
NASA Earth Surface Interior (Co-I with Estelle Chaussard)   ($50k)   2019-2021
San Diego Super Computer COMET mini-proposal startup allocation   2018-2019
Southern California Earthquake Center (w/ Y. Ben-Zion & F. Vernon)   ($15k)   2018-2019
National Science Foundation EAR Postdoctoral Fellowship (PI)   ($174k)   2017-2019
Southern California Earthquake Center (proposal with R. Bürgmann)   ($28k/yr)   2014-2017
Northern CA Earthquake Hazard Program (proposal with R. Bürgmann) ($24k)   2015-2016
National Science Foundation Graduate Research Fellowship Program   ($120k)   2012-2017

Peer Reviewed Publications
**mentored students

In-review

Johnson, C.W. and Johnson, P.A. (*in GRL review*) Learning the low frequency earthquake activity on the central San Andreas Fault.

Xue, L., Y. Fu, **C.W. Johnson**, J.J Otero-Torres, C.K. Shum, and R. Bürgmann (*in JGR review*) Seasonal seismicity in the Lake Biwa region of central Japan moderately modulated by lake water storage changes.

Chen, K.H., T-C. Yeh, **C.W. Johnson**, C-H Lin, Y-C Lai, M-H Shih (*in SRL review*) Whispering of the city: Characteristics and origin of environmental shaking in the Taipei metropolitan area.

Teaching Experience

University of California San Diego
  Machine Learning for Physical Applications Upper division / Graduate course
    Assisted Peter Gerstoft with ECE228 Spring 2019

University of California Berkeley
  Structural Geology Upper division
    Teaching Assistant Spring 2015 & Spring 2016
    2015 Student Instructor Evaluations 6.2   (dept. avg. 5.75)
    2016 Student Instructor Evaluations 6.2   (dept. avg. 5.95)

  Case Studies in Earth Systems Upper division scientific writing
    Teaching Assistant Fall 2013, Fall 2014, & Fall 2015

Georgia Institute of Technology
  Energy and Society Lower division scientific writing
    Teaching Assistant Spring 2012

  Thermodynamics of Earth Systems Upper division
    Teaching Assistant Fall 2011

Student Mentoring

Niloufar Abolfathian Co-mentor w/ Y. Ben-Zion for PhD Dissertation. Publication in prep.

Dylan Snover, Co-mentor w/ P. Gerstoft for Masters Thesis. Publication in SRL.

Eoghan Totten, Undergraduate Research Mentor. Publication in GRL.

Awards and Honors

Richard P. Feynman Postdoctoral Fellow, Los Alamos NL	2020-2023
National Science Foundation EAR Postdoctoral Research Fellowship	2017-2019
Louderback Award, Earth and Planetary Science, UC Berkeley	2017
National Science Foundation Graduate Research Fellowship Program	2012-2017
Earth and Atmospheric Sciences Quarter Century Award, Georgia Tech	2012

Rutt Bridges Research Initiative Award, Georgia Tech   2011
Presidential Undergraduate Research Award, Georgia Tech   2011
Anadarko/SEG Tuition Scholarship   2011-2012
Geological Society of America, Undergrad Research Grant, Georgia Tech   2011
Georgia Hope Scholarship   2008-2011

Invited Talks

GAGE/SAGE 2020 Science Workshop, Breckenridge, Colorado. Probing fault systems using hydrospheric induced stress modulation. August 2020 CANCELED COVID-19

Japan Geoscience Union Meeting 2020, Chiba, Japan. Multiple classes of non-tectonic emergent and impulsive seismic noise identified in continuous waveforms. May 2020 Online COVID-19

University of Southern California, Los Angeles, CA, "Seasonal water storage, stress modulations, and variations in seismicity", November 2019

Los Alamos National Laboratory, Los Alamos, NM, "What's all that seismic noise? Classifying emergent and impulsive signals in continuous waveforms", July 2019

California Institute of Technology, Pasadena, CA, "What's all that seismic noise? Classifying emergent and impulsive signals in continuous waveforms", July 2019

University of Grenoble Alpes, Grenoble, "Climate modulated water storage, the deformation, and California earthquakes" France, June 2019

Institute of Geophysics and Planetary Physics, University of California, San Diego. "Classifying emergent and impulsive seismic noise in continuous waveforms with machine learning models" April 2019

IRIS Workshop 2018, Albuquerque, New Mexico. "Climate modulated water storage, the deformation, and California earthquakes" June 2018

Japan Agency for Marine-Earth Science and Technology (JAMSTEC), Yokohama Institute for Earth Science, Yokohama, Japan. "Climate modulated water storage, the deformation, and California earthquakes" May 2018

Japan Geoscience Union Meeting 2018, Chiba, Japan. "Climate modulated water storage, the deformation, and California earthquakes" May 2018

Institute of Geophysics and Planetary Physics, University of California, San Diego. "Climate modulated water storage, the deformation, and California earthquakes" Feb 2018

Department of Geological Sciences, University of Florida, Gainesville, FL. "Climate modulated water storage, the deformation, and California earthquakes" Feb 2018

American Geophysical Union Fall Meeting 2017, New Orleans, LA. "Seasonal water storage, stress modulation and California seismicity" G53B-01 Dec 2017

Institute of Earth Sciences, Academia Sinica, Taipei, Taiwan. Workshop on Seasonal variations in hydrological, atmosphere, and tidal loads, and the association with fault

deformation. Keynote Speaker "Evaluating surface loading sources, the background stress orientation, and seismic rate variations" Sept 2017

Dept. of Earth Sciences, National Taiwan Normal Univ., Taipei, Taiwan. "Stress models of the hydrospheric, atmospheric, thermal, and tidal loading: Perturbations to the background stress and changes in seismicity" Sept 2017

Lawrence Berkeley National Lab. Berkeley, CA. "Seasonal stress modulation on active California fault structures" July 2017

Computation in Geophysics Workshop. Denver, CO. "Seasonal stress modulation on active California fault structures" June 2017

EarthScope National Meeting. Anchorage, AK. "Seasonal stress modulation on active California fault structures" May 2017

Department of Geological Sciences, University of Texas at Austin. Austin, TX. "Seasonal loading modulating seismicity on California faults" April 2017

Conference Talks and Poster Presentations

Community Outreach	Sally Ride Junior Academy Instructor, San Diego CA. 2018

EPS Department Coordinator for Bay Area Science in Schools outreach program organized by Community Resources for Science (crscience.org) from 2015-2017.

Lead activities for the Berkeley Seismological Laboratory outreach program.

Involvement includes developing lesson plans for earthquakes, faulting, earthquake safety, and preparedness for the $6^{th} - 8^{th}$ grade level. Travel to local middle schools, with a focus on underrepresented communities, and give 1-2 hour lessons with a lab component on earthquake faulting, liquefaction, and safety.
